

DATE: April 10, 2019 SUBJECT:

> Certificate of Appropriateness Request: Applicant: Location of subject property: Staff Report prepared by:

H-05-19 Christine Monks 40 Franklin Ave NW Scott Sherrill, Sr. Planner

BACKGROUND:

- The subject property is site of a "Pivotal" structure and is located in the North Union Street Historic District. (Exhibit A)
- Date of home construction: ca. 1880
- Applicant is seeking to remove a gingko tree and replace it with three apple trees.

DISCUSSION:

The applicant seeks to remove and replace a 75' tall gingko in the front yard with a hazard rating of "4" and replace it with three apple trees in the rear yard.

HISTORIC HANDBOOK DESIGN RECOMMENDATIONS:

Chapter 5 – Section 8: Landscaping and Trees

One of the most visible features of the Districts is the landscaping and the associated tree canopy. Activities which negatively impact any aspect of the landscape should be avoided, such as the removal of healthy trees and mature shrubs.

Tree health may be decided upon by the acquisition of a Tree Hazard Evaluation Report issued by the City Arborist or a report submitted by a certified arborist. Healthy trees are trees that have a hazard rating of 4 or lower. Removal of healthy trees over the size of 6 inches in diameter (measured 4 feet above ground) or pruning of healthy tree limbs over 6 inches in diameter requires Historic Preservation Commission review and approval...

All trees that are removed should be replaced with a tree of similar species in an appropriate location unless no suitable location exists on the subject site. Trees removed within street view must also have the stumps removed below ground level.

Design Guidelines

2. Trees which are removed shall be replaced by a species which, upon maturity, is similar in scale to the removed specimen. For example, canopy trees shall be replaced with canopy trees, and understory trees with understory trees.

Historic Preservation Commission Case # H-04-19

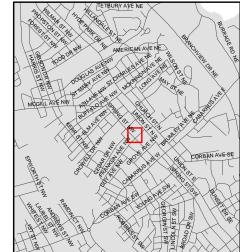

RECOMMENDATION:

- The Historic Preservation Commission should consider the circumstances of this application for a Certificate of Appropriateness relative to the <u>North and South Union Street Historic Districts</u> <u>Handbook and Guidelines</u> and act accordingly.
- 2. If approved, applicant(s) should be informed of the following:
 - City staff and Commission will make periodic on-site visits to ensure the project is completed as approved.
 - Completed project will be photographed to update the historic properties survey.

Inventory List – North Union Street #7 Historic District, Concord

One-story, frame Queen Anne style cottage with facade composed of two cross gables. Gable on east (right) side projects forward of main block and has cut-away corners. Both gables embellished with sawn ornaments with spindlework and cut-out ventilator. Wrap-around porch has Tuscancolumns which replaced original porch supports at undetermined early 20th. century date.

75. B. Franklin Rogers House 40 Franklin Avenue, N.W. ca. 1880 P

> High significant, two-story, frame house in the "domestic Gothic" style popularized by the American architect Andrew Jackson Downing during the mid-19th. century, the only surviving example of the style in Concord. House enjoys perhaps the most picturesque setting in the distric. House has L-shaped, gable-roofed main block and pair of rear, two-story gableroofed wings. All gables are trimmed with wavy bargeboard, as are the sharply pitched, gable-roofed dormers that pierce the roofline of the main block and one of the rear wings. In addition to these characteristically Gothic features, the house has Italianate details often seen in Downing-inspired designs, including a three-sided, slanted bay window on the west (left) facade bay, a handsome wrap-around porch with chamfred, molded and bracketed porch posts, and an entrance with a two-leaf, four-panel door and a molded architrave. House has asbestos siding. House deeply set in one of the district's largest lots, which is bordered by rubble stone walls and closely planted shrubs. Within the walls, informally arranged features include a greenhouse, reflecting pool, and gazebo.

B. Franklin Rogers (1847-1908) was a schoolteacher and later a traveling salesman who invested in local businesses.

House 68 Franklin Avenue, N.W. c. 1905 C

76.

One-story, frame cottage with side gable roof and projecting west (left) facade bay. Two-bay porch with turned posts and balustrade; 2/2 sash windows. Vinyl siding. One of a pair of speculative cottages said to have been built by businessman J.L. Hartsell, whose Spring Street residence adjoins this property (see #126).

Application for Certificate of Appropriateness

Land Use:

AN INCOMPLETE APPLICATION WILL NOT BE PLACED ON THE AGENDA UNTIL ALL OF THE REQUIRED ATTACHMENTS AND/OR ITEMS LISTED ON PAGE 2 ARE SUBMITTED.

General Requirements

The Unified Development Ordinance imposes the following rules, regulations and requirements on requests for Certificates of Appropriateness. The applicant must, with reference to the attached plans, demonstrate how the proposed use satisfies these requirements:

pmoval 1. Project or Type of Work to be Done: Detailed specifications 2 of the project (type of siding, windows, doors, height/style of fence, color, etc.): ar braeburn

Required Attachments/Submittals

- 1. Scaled site plan, if additions or accessory structures are proposed, on letter, legal or ledger paper. Larger sized copies will be accepted if **16 folded copies** are submitted for distribution.
- 2. A photograph of the front of the house.
- 3. Photographs of site, project, or existing structures from a "before" perspective
- 4. Drawings, sketches, renderings, elevations, or photographs necessary to present an illustration of the project from an "after" perspective.
- 5. Samples of windows, doors, brick, siding, etc. must be submitted with application.
- 6. Detailed list of materials that will be used to complete the project.

***Applications may be submitted electronically. ***

Certification

(1) I hereby acknowledge and say that the information contained herein and herewith is true and that this application shall not be scheduled for official consideration until all of the required contents are submitted in proper form to the City of Concord Development Services Department. (2) I understand that City staff and/or members of the Historic Preservation Commission may make routine visits to the site to insure that work being done is the same as the work that was approved. (3) I understand that photographs of the completed project will be made to update the City's historic districts inventory database.

COMMENTS _

This tree has several structural abnormalities identified in the accompanying photos that increase the potential for failure of major portions of this tree in the future. Removal and replacement of this tree is recommended. The applicant has requested a tree replacement of several small fruit trees in lieu of a tree species of similar size.
